The Second Conference of Chinese Industrial Architectural Heritage, Chongqing

edited by Oriane Pillet

While the concept of industrial heritage is still vague in the Chinese context, the geographical region of research has been enlarged from the highly industrialized eastern coastal area and traditional industrial region to the mid-western such as Sichuan.

Representing and coping with early 20th-century Chongqing

edited by Monique Abud

This article analyzes the verbal images in early twentieth-century Chongqing's "guide songs", an expression of popular culture describing the city's urban spaces.

<http://urbachina.hypotheses.org/9805>

Unauthorized use change of the industrial buildings

edited by Monique Abud

Taking the Chongqing's S district as an example, the authors of this article analyze the many problems aroused by the unauthorized use change of the industrial buildings.
