Drought in Yunnan: ecological and water quality factors
edited by Monique Abud

Yang, Fangyi and Zhou Jiading (2013). Why has water-rich Yunnan become a drought hotspot? China dialogue, 29 April. (Accessed 23 May 2013).
Yunnan's drought continues. During China's annual parliamentary session in March, the deputy party secretary of the south-west Chinese province, Qiu He, blamed spring floodwaters that flow through Yunnan and on into other countries for the water shortages.
