2015-06 (February)

Beijing life in a shipping container
edited by Jacqueline Nivard

On the outskirts of Beijing, a gardener has built a home out of shipping containers in the hope of creating a green community in the polluted city.

Second homes in Hainan (II): social inequalities
written by Sebastien Goulard

Second homes may fragilize Hainan's social structures
<http://urbachina.hypotheses.org/11914>

UrbaChinaNewsletter

*Funded under the European Commission's Seventh Framework Programme, **UrbaChina** is a collaborative project managed by a consortium of 11 leading Chinese and European research institutions. **UrbaChina** analyses China's urbanisation trends for the next 40 years and define possible future scenarios with reference to concepts of sustainability.*
